FOND DU LAC COUNTY, WISCONSIN Statement of Revenues, Expenditures and Changes in Fund Balance (continued) Governmental Funds Year Ended December 31, 2007

Reconciliation to the Statement of Activities:

Net Change in Fund Balances from previous page	<i></i>	2,710,435
Amounts reported for governmental activities in the statement of activities are different because: Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and is reported as depreciation expense. Capital outlay Depreciation expense	\$ 4,764,010 (4,557,319)	206,691
The net effect of the loss on disposal of capital assets is to decrease net assets.		(48,289)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		(181,202)
Internal service funds are used by management to charge the costs of central maintenance and self insured heatlh to individual funds. The net expenditure of certain activities of internal service funds is reported with governmental activities.		(30,152)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.		
Debt issued or incurred: Issuance of general obligation promissory notes	(4,500,000)	
General obligation debt Alliant Energy advance Capital lease	2,800,000 211,736 11,186	(1,477,078)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.		
Compensated absences Accrued interest Amortization of issuance costs	(77,611) (32,403) (15,909)	(125,923)
Change in Net Assets of Governmental Activities as reported on the Statement of Activities (see pages 16 - 17)	<i>⇔</i>	1,054,482

Notes to Basic Financial Statements
December 31, 2007

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of Fond du Lac County ("the County"), Fond du Lac, Wisconsin, have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the County are described below:

1. Reporting Entity

The County is a municipal corporation governed by an elected 36 member board. In accordance with GAAP, the basic financial statements are required to include the County (the primary government) and any separate component units. The basic criterion for including a legally separate organization as a component unit is the degree of financial accountability the County has with the organization. The following circumstances set forth the County's financial accountability for a legally separate organization:

- a. The County is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the County.
- b. The County may be financially accountable if an organization is fiscally dependent on the County regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government, or (3) a jointly appointed board.

Based on the previous criterion, the following component unit is included within the reporting entity.

Housing Authority of Fond du Lac County

The basic financial statements include the Housing Authority of Fond du Lac County (Housing Authority) as a component unit. The Housing Authority is a legally separate organization. The board of the Housing Authority is appointed by the County Executive. Wisconsin Statutes provide for circumstances whereby the County can impose its will on the Housing Authority, and also create a potential financial benefit to, or burden on, the County. As a component unit, the Housing Authority's financial statements have been presented as a discrete column in the basic financial statements. It is reported in a separate column to emphasize that it is legally separate from the County. The Housing Authority is a separate entity established to administer the housing program for low and moderate income families. It is funded by federal and state grants and rental income. The information presented is for the fiscal year ended June 30, 2007. Separately issued financial statements of the Housing Authority may be obtained from the Housing Authority's office at 15 North Marr Street, Fond du Lac, WI.

2. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the County and its component unit. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which are supported primarily by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Notes to Basic Financial Statements
December 31, 2007

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Governmental funds include general, special revenue, permanent, debt service and capital projects funds. Proprietary funds include enterprise funds and internal service funds. The County has two internal service funds: Central Maintenance and Health Self-Insurance. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

GENERAL FUND

This is the County's main operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

COUNTY ROAD & BRIDGE FUND

This fund accounts for financial resources used for the maintenance and construction of County road and bridge system.

DEPT OF COMMUNITY PROGRAMS FUND

This fund accounts for financial resources used to provide State mandated services to clients with mental health, alcohol and other drug abuse, developmental disability and closely-related conditions.

DEPT OF SOCIAL SERVICES FUND

This fund accounts for financial resources used to provide services to clients in the areas of income maintenance, counseling and other human services.

CAPITAL PROJECT FUND

This fund accounts for financial resources used for the acquisition, construction and remodeling of major capital facilities other than those financed by proprietary funds and trust funds.

DEBT SERVICE FUND

This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The County reports the following major enterprise funds:

HIGHWAY

This fund accounts for the activities associated with the maintenance and construction of roadways and bridges located within the County.

CARE MANAGEMENT ORGANIZATION

This fund accounts for the activities associated with the family care program serving disabled and elderly clients within a managed care system.

HEALTH CARE CENTER

This fund accounts for the activities associated with the skilled nursing facility serving disabled clients.

Notes to Basic Financial Statements
December 31, 2007

ROLLING MEADOWS NURSING/REHAB CENTER

This fund accounts for the activities associated with the skilled nursing facility serving elderly clients, including a Medicare certified therapy program.

AIRPORT

This fund accounts for the activities associated with the County's airport facilities.

Additionally, the government reports the following fund types:

Internal service funds account for central maintenance and health self-insurance services provided to other departments or agencies of the County, or to other governments, on a cost reimbursement basis.

The *permanent fund* is used to account for resources legally held in trust for the Sheriff Canine Program. Only earnings on the invested resources may be used to support the Sheriff Canine Program.

The County accounts for assets held as an agent for Patient Trust Activity, District Attorney Restitution Activities, Huber Law/Canteen Activities, Clerk of Courts Fund, and Tax Collection Activities in an agency fund.

3. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Revenues susceptible to accrual include intergovernmental grants, intergovernmental charges for services, public charges for services and interest. Other revenues such as licenses and permits, other fines and forfeits and miscellaneous revenues are recognized when received in cash or when measurable and available.

Certain private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following certain subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges to the County's enterprise funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Notes to Basic Financial Statements
December 31, 2007

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, and fees and fines, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise funds are charges to customers for services. Operating expenses for enterprise funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources, as they are needed.

4. Assets, Liabilities and Net Assets or Equity

a. Cash and Investments

Cash and investments are combined in the financial statements. Cash deposits consist of demand and time deposits with financial institutions and are carried at cost. Investments are stated at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. For purposes of the statement of cash flows, all cash deposits and highly liquid investments (including restricted assets) with a maturity of three months or less from date of acquisition are considered to be cash equivalents.

b. Accounts Receivable

Accounts receivable have been shown net of allowance for uncollectible accounts of \$3,581,363.

c. Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" and "due to other funds" in the fund financial statements. Noncurrent portions of the interfund receivables for the governmental funds are reported as advances and are offset by a reservation of fund balance since they do not constitute expendable available financial resources and therefore are not available for appropriation.

The amount reported on the statement of net assets for internal balances represents the residual balance outstanding between the governmental activities and business-type activities.

d. Inventories

Inventories are recorded at cost, which approximates market, using the first-in, first-out method. Inventories consist of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are consumed rather than when purchased.

Inventories of governmental funds in the fund financial statements are offset by fund balance reserve amounts to indicate that they do not represent spendable available financial resources.

e. Prepaid Items

Payments made to vendors that will benefit periods beyond the end of the current fiscal year are recorded as prepaid items.

Prepaid items of governmental funds in the fund financial statements are offset by fund balance reserve amounts to indicate that they do not represent spendable available financial resources.

Notes to Basic Financial Statements
December 31, 2007

f. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of \$500 or higher for general capital assets or \$3,000 for road and bridge infrastructure, and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets of the County are depreciated using the straight-line method over the following estimated useful lives:

	Governmental Activities	Business-Type Activities
	Y	ears
<u>Assets</u>		
Land improvements	25-100	25-100
Building/building improvements	25-50	25-50
Machinery and equipment	3-10	3-10
Infrastructure	10-50	-

g. Compensated Absences

It is the County's policy to permit employees to accumulate earned but unused vacation and sick leave benefits in accordance with bargaining unit agreements. All vacation and sick leave is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds in the fund financial statements only if they have matured, for example, as a result of employee resignations and retirements.

h. Deferred Revenue

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period or for resources that have been received, but not yet recognizable.

Long-term Obligations

In the government-wide financial statements, and proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes to Basic Financial Statements
December 31, 2007

j. Fund Equity

GOVERNMENTAL FUND FINANCIAL STATEMENTS

Governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

GOVERNMENT-WIDE AND PROPRIETARY FUND STATEMENTS

Equity is classified as net assets and displayed in three components:

- Invested in capital assets, net of related debt Amount of capital assets, net of accumulated depreciation, less outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted net assets Amount of net assets that are subject to restrictions that are imposed by
 1) external groups, such as creditors, grantors, contributors or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- Unrestricted net assets Net assets that are neither classified as restricted nor as invested in capital assets, net of related debt.

5. <u>Use of Estimates</u>

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

6. Prior Period Adjustment for Community Development Block Grant Loans

The December 31, 2006 Governmental Activities net asset balance of the County did not include receivables of \$3,581,473 for Community Development Block Grant funded loans to County businesses. In 2007, it was determined that although the loans are administered and managed by the Fond du Lac County Economic Development Corporation, the businesses are obligated to repay Fond du Lac County. Accordingly, the January 1, 2007 Governmental Activities net asset balance was increased by \$3,581,473 as a prior period adjustment.

NOTE B - STEWARDSHIP AND COMPLIANCE

Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the basic financial statements:

a. During October, County management submits to the County Board a proposed operating budget for the calendar year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them. After submission to the governing body, public hearings are held to obtain taxpayer comments. Following the public hearings, the proposed budget, including authorized additions and deletions, is legally enacted by County Board action.

Notes to Basic Financial Statements
December 31, 2007

- b. Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for the general fund, special revenue funds, debt service fund, capital project fund, internal service funds and enterprise funds. Budget is defined as the originally approved budget plus or minus approved amendments. Individual amendments throughout the year were not material in relation to the original budget. Budget appropriations not expended during the year are closed to fund balance unless authorized by the governing body to be forwarded into the succeeding year's budget.
- c. During the year, formal budgetary integration is employed as a management control device for the general fund, special revenue funds, debt service fund, internal service funds and enterprise funds. Management control for the capital projects funds is achieved through project authorizations included in debt issue resolutions.
- d. Expenditures may not exceed appropriations provided in detailed budget accounts maintained for each activity or department of the County. Amendments to the budget during the year require initial approval by management and the committee of jurisdiction and are subsequently authorized by the County Board. Minor budgetary transfers within an activity or department, defined as \$1,500 or ten percent of the activity or department's aggregate approved budget, whichever is less, may be authorized by action of the Finance, Taxation, and Personnel Committee of the County Board, without going to the full County Board for approval.
- e. Encumbrance accounting is used by the County to record commitments related to unperformed contracts for goods or services.

The County did not have any material violation of legal or contractual provisions for the fiscal year ended December 31, 2007.

2. Excess of Expenditures Over Budget Appropriations

The following expenditure accounts of the general, major special revenue funds and debt service funds had actual expenditures in excess of budget appropriations for the year ended December 31, 2007 as follows:

		Excess
Fund	Function	Expenditures
General Fund	District Attorney	\$ 10,995
General Fund	Victim/Witness Program	1,837
General Fund	Miscellaneous Nondept Expenditures	49,118
General Fund	Sheriff	21,574
General Fund	Jail	473,443
General Fund	Jail Building Maintenance	30,134
General Fund	Home Health	58,987
General Fund	Tobacco Control	644
General Fund	Land Conservation	5,116
General Fund	County Promotion	2,568
General Fund	CDBG-Revolving Loan Fund	38,067
General Fund	Environmental Services	75,955
Special Revenue Fund	County Road & Bridge Fund	113,399

The above excess expenditures were funded using favorable revenue variances and available fund balance in the general, special revenue and debt service funds.

Notes to Basic Financial Statements
December 31, 2007

NOTE C - DETAILED NOTES ON ALL FUNDS

1. Cash and Investments

Cash on hand

PRIMARY GOVERNMENT

The County maintains various cash and investment accounts, including pooled funds that are available for use by all funds. Each fund's portion of these accounts is displayed in the financial statements as "Cash and investments."

Invested cash consists of deposits and investments that are restricted by Wisconsin Statutes to the following:

Time deposits; repurchase agreements; securities issued by federal, state and local governmental entities; statutorily authorized commercial paper and corporate securities; and the Wisconsin local government investment pool.

C

0.875

The carrying amount of the County's cash and investments totaled \$29,105,707 on December 31, 2007 as summarized below:

Deposits with financial institutions Investment	10,279,664
Wisconsin local government investment pool	18,816,168 \$ 29,105,707
Reconciliation to the basic financial statements:	
Basic financial statements	
Cash and investments	\$ 23,471,903
Restricted cash and investments	1,758,050
Fiduciary funds	
Agency funds	3,875,754
- ·	\$ 29,105,707
	Ψ = 0, 100,101

Deposits and investments of the County are subject to various risks. Presented below is a discussion of the County's deposits and investments and the related risks.

Deposits with Financial Institutions

Deposits with financial institutions are insured by the Federal Deposit Insurance Corporation (FDIC) in the amount of \$100,000 for interest bearing accounts and \$100,000 for non-interest bearing accounts. Deposits with credit unions are insured by the National Credit Union Share Insurance Fund (NCUSIF) in the amount of \$100,000 per credit union member. In addition, the State of Wisconsin has a State Guarantee Fund which provides a maximum of \$400,000 per public depository above the amount provided by an agency of the U.S. Government. However, due to the relatively small size of the State Guarantee Fund in relation to the Fund's total coverage, total recovery of insured losses may not be available.

As of December 31, 2007, \$12,267 of the County's deposits with financial institutions is in excess of federal and state depository insurance limits and uncollateralized.

Custodial credit for deposits is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The County's policy is to have their operating bank collateralize their average balance on deposit.

Notes to Basic Financial Statements
December 31, 2007

Investments

The County has investments in the Wisconsin local government investment pool of \$18,816,168 at yearend. The Wisconsin local government investment pool (LGIP) is part of the State Investment Fund (SIF), and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At December 31, 2007, the fair value of the County's share of the LGIP's assets was substantially equal to the carrying value.

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Wisconsin statutes limit investments in securities to the top two ratings assigned by nationally recognized statistical rating organizations. The County does not have an additional credit risk policy. The County's investment in the Wisconsin local government investment pool is not rated. Investments in the Wisconsin Local Government Investment Pool are covered under a surety bond issued by Financial Security Assurance, Inc. The bond insures against losses arising from principal defaults on substantially all types of securities acquired by the pool. The bond provides unlimited coverage on principal losses, reduced by any FDIC, State of Wisconsin Guarantee Fund insurance, and income on the investment during the calendar quarter a loss occurs.

Interest rate risk is the risk that changes in market interest rages will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment is, the greater the sensitivity of its fair value to changes in market interest rates. The County does not have an interest rate risk policy. The investments held by the Wisconsin local government investment pool mature in 12 months or less.

Restricted Cash and Investments

On December 31, 2007, the County has restricted cash and investments of \$1,758,050, consisting of remaining long term debt proceeds.

DISCRETELY PRESENTED COMPONENT UNIT

At year end, the carrying amount of the Housing Authority, a discretely presented component unit, was \$344,952 and the bank balance was \$353,778. All of the bank balance was covered by FDIC insurance.

2. Property Tax Apportionments

Property taxes are apportioned annually in November to local taxing units within the County for financing state charges and the subsequent year's operations of the County. Since the November apportionment is not due from local taxing districts until February of the subsequent year, the County's apportionment is recorded as deferred revenue at year-end. Property tax payments from individual property owners are due in two installments by January 31 and July 31. During the month of February, each local taxing district settles with the County for both collected and unpaid property taxes. At the February settlement, the County becomes responsible for the collection of unpaid property taxes, including unpaid property taxes returned by local taxing districts for financing their individual operations. Property taxes subsequently not paid by property owners by September 1 of the same year are considered delinquent. The delinquent taxes are then acquired by the County's general fund in accordance with state statutes in order to provide the County with a statutory lien.

Property taxes recorded on December 31, 2007 for collection in 2008 are for the following:

State apportionment County apportionment

\$ 1,132,956 32,851,405 \$33,984,361

The above County apportionment of \$32,851,405 is for financing 2008 operations and will be transferred in 2008 from deferred revenue to current revenues of the County's governmental and proprietary funds.

Notes to Basic Financial Statements
December 31, 2007

3. Delinquent Property Taxes - General Fund

Delinquent property taxes of the general fund represent unpaid property taxes on real estate, including state and local government equities therein. Under state statutes, the County annually reimburses the state and local governments for their equities in property taxes not collected from the property owner. Unless redeemed by the property owner, the County will eventually obtain tax deed ownership of the properties comprising delinquent taxes. In the past, the County has generally been able to recover its investment in delinquent taxes by sale of the tax deeded properties.

On December 31, 2007, the County's general fund showed an investment of \$1,855,959 in delinquent taxes as follows:

Tax certificates	\$1,846,198
Tax deeds	9,761
Total	\$1,855,959

An aging of the total delinquent taxes of \$1,855,959 on December 31, 2007 follows:

		Tax	Tax
Year Acquired	Total	Certificates	Deeds
Prior to 2002	\$ 22,036	\$ 22,010	\$ 26
2002	4,508	4,508	_
2003	9,750	9,750	-
2004	103,838	103,838	-
2005	196,497	196,497	-
2006	465,226	465,226	_
2007	1,054,104	1,044,369	9,735
	\$1,855,959	\$1,846,198	\$ 9,761

Of the total of \$1,855,959 for delinquent taxes, \$213,919 was collected by the County within 60 days after December 31, 2007. The remaining unpaid balance of \$1,235,185 is recorded as reserved fund balance for the general fund and \$406,855 is recorded as a deferred property tax liability on the general fund balance sheet.

4. Receivables

Receivables as of year end for the County's individual major governmental funds, aggregate nonmajor governmental and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General	County Road & Bridge	Dept of Community Programs	Dept of Social Services	Debt Service	Nonmajor and Other Funds	Total
Receivables:	•						
Taxes	\$15,611,949	\$2,850,270	\$4,061,323	\$5,761,257	\$4,276,235	\$ 629,613	\$33,190,647

6. Interfund Receivable, Payables, and Transfers

The composition of interfund balances as of December 31, 2007 is as follows:

Due to/from other funds:		
Receivable Fund	Payable Fund	Amount
Operating Accounts between Funds:		
Dept. of Social Services	Care Management Organization	\$ 4,357
	Dept. of Community Programs	36,339
Temporary Cash Advances to Finance	Operating Cash Deficits:	•
General Fund	Health Self Insurance Fund	743
	Rolling Meadows Nursing/Rehab Center	284,905
	Rolling Meadows Golf Course	631,505
	Airport	48,699
	Landfill	79,925
Total		\$1,086,473

Interfund transfers for the year ended December 31, 2007 were as follows:

	Transfer to Fund	Transfer from Fund
Transfers between Funds		
General Fund	\$ 2,401,790	\$ 259,667
Special Revenue Funds		
Dept. of Community Programs	-	1,967,229
Dept. of Social Services	-	201,069
Nutrition	27,000	-
Debt Service Funds		
G.O. Building Bonds (1999)	-	1
G.O. Bonds (2001)	-	1
G.O. Refunding Bonds (2001)	75,000	-
G.O. Taxable Refunding Bonds (2002)	-	58,607
Internal Service Funds		
Health Self Insurance	22,667	=
Central Maintenance	-	13,588
Enterprise Funds		
Highway	18,358	-
Health Care Center	20,397	
Rolling Meadows Nursing/Rehab Center	19,851	-
Airport	-	5,701
Golf Course	_	71,200
Landfill		8,000
Totals	\$ 2,585,063	\$ 2,585,063

Transfers are used to: (1) move unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; (2) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; and (3) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service funds as debt service payments become due.

Notes to Basic Financial Statements December 31, 2007

7. <u>Deferred Revenues</u>

Governmental activities and governmental funds defer revenue recognition in connection with resources that have been received, but not yet earned. Governmental funds also report deferred revenue in connection with receivables for resources that are not considered to be available to liquidate liabilities of the current period. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue were as follows:

	Unavailable	Unearned
Subsequent year tax levy receivable:		
General	\$ -	\$13,193,785
County Road & Bridge	_	2,850,270
Dept of Community Programs	-	4,061,323
Dept of Social Services	-	5,761,257
Capital Project Fund - Interoperability	-	380,000
Debt Service	_	4,276,235
Central Maintenance – Internal Service Fund	_	249,613
Delinquent property taxes receivable – General Fund	-	401,619
CDBG loans thru FCEDC	3,441,034	-
Grant and other receivables	321,575	265,607
Totals	\$ 3,762,609	\$31,439,709

8. Long-term Obligations

BUSINESS-TYPE ACTIVITIES: General Obligation Debt										
Bonds	\$	300,000	\$	-	\$	145,000	\$	155,000	\$	155,000
Alliant Energy Advance		123,797		-		82,310		41,487		18,305
Capital Lease		71,210				18,137		53,073		20,280
Compensated absences		443,558		9,372		24,857		428,073	·	173,757
Business-type activities Long-term liabilities	\$	938,565	\$	9,372	\$	270,304	\$	677,633	\$	367,342

Total interest paid during the year on long-term debt totaled \$1,261,036.

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At year end, \$14,029 of internal service funds compensated absences are included in the above amounts.

The Housing Authority, a discretely presented component unit, has no long term debt at June 30, 2007.

December 31, 2007

Fund Statements

In the fund financial statements, portions of governmental fund balances are reserved and not available for appropriation or are legally restricted for use for a specific purpose. At December 31, 2007, fund balance was reserved as follows:

General Fund	
Reserved for inventories and prepaid items	\$ 304,130
Reserved for delinquent property taxes	1,235,185
Dept of Community Programs	, ,
Reserved for inventories and prepaid items	90,889
Dept of Social Services	,
Reserved for inventories and prepaid items	75,742
Nutrition Fund	
Reserved for inventories and prepaid items	1,669
Debt Service	
Reserved for retirement of long-term debt	18,476
Sheriff Canine Fund	·
Reserved for sheriff canine fund	50,000
Total	\$1,776,091

Also in the fund financial statements, portions of governmental fund balances have been designated to represent tentative management plans that are subject to change. At December 31, 2007, fund balance was designated as follows:

MAJOR FUNDS	
General Fund	
Designated for subsequent years expenditure	\$5,584,330
Special Revenue Funds	, ,
County Road & Bridge	
Designated for subsequent years expenditure	77,354
Dept of Community Programs	·
Designated for subsequent years expenditure	25,611
Capital Project Funds	
Interoperabilty Project	
Designated for subsequent years expenditure	1,758,050
NONMAJOR FUNDS	
Special Revenue Fund	
Nutrition Program	
Designated for subsequent years expenditure	56,052
Permanent Fund	
Sheriff Canine Fund	
Designated for subsequent years expenditure	14,219
Total	\$7,515,616

NOTE D - OTHER INFORMATION

1. Retirement Commitments

All eligible County employees participate in the Wisconsin Retirement System (WRS), a cost-sharing multiple-employer public employee retirement system. All permanent employees expected to work over 600 hours a year (440 hours for teachers) are eligible to participate in the WRS. Covered employees in the General category are required by statute to contribute 6.0% of their salary (3.0% for Executives and Elected Officials, 5.1% for Protective Occupations with Social Security, and 3.4% for Protective

Notes to Basic Financial Statements
December 31, 2007

behalf of employees. The County funds the employee share, with a maximum County contribution per pay period or annually, based on level of position and/or employment group. Required employee contributions in excess of this amount are paid by the employee. Employers are required to contribute an actuarially determined amount necessary to fund the remaining projected cost of future benefits.

The payroll for County employees covered by the WRS for the year ended December 31, 2007 was \$37,002,375; the employer's total payroll was \$38,071,952. The total required contribution for the year ended December 31, 2007 was \$4,066,263, which consisted of \$1,903,039, or 5.1% of covered payroll from the employer and \$2,163,224, or 5.8% of covered payroll from employees. \$1,977,620 of the required contribution for employees for the year ended December 31, 2007 was financed by the County. Total contributions for the years ending December 31, 2006 and 2005 were \$3,896,142 and \$3,777,070, respectively, equal to the required contributions for each year.

Employees who retire at or after age 65 (62 for elected officials and 54 for protective occupation employees with less than 25 years of service, 53 for protective occupation employees with more than 25 years of service) are entitled to receive a retirement benefit. Employees may retire at age 55 (50 for protective occupation employees) and receive actuarially reduced benefits. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor. Final average earnings is the average of the employee's three highest year's earnings. Employees terminating covered employment before becoming eligible for a retirement benefit may withdraw their contributions and, by doing so, forfeit all rights to any subsequent benefit. For employees beginning participation on or after January 1, 1990 and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 or after April 24, 1998 are immediately vested.

The WRS also provides death and disability benefits for employees. Eligibility and the amount of all benefits is determined under Chapter 40 of Wisconsin Statutes. The WRS issues an annual financial report which may be obtained by writing to the Department of Employee Trust Funds, P.O. Box 7931, Madison, WI 53707-7931.

The Housing Authority, a discretely presented component unit, does not provide a retirement plan for its' employees.

Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. The County completes an annual review of its insurance coverage to ensure adequate coverage.

3. Contingencies

- a. The County participates in a number of federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. An audit under OMB Circular A-133 has been conducted but final acceptance is still pending. Accordingly, the County's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although the County expects such amounts, if any, to be immaterial.
- b. From time to time, the County is party to other various pending claims and legal proceedings. Although the outcome of such matters cannot be forecast with certainty, it is the opinion of management and legal counsel that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the County's financial position or results of operations.

Notes to Basic Financial Statements
December 31, 2007

4. <u>Limitations on the County's Tax Levy, Tax Levy Rate and Its Ability to Issue New Debt</u>

Wisconsin Act 25, effective July 27, 2005, imposes a limit on the property tax levies for all of Wisconsin cities, villages, towns and counties for a two-year period. Wisconsin State Budget bill SB40 continues the limit on the property tax levies through 2009. The budget bill limits the increase in the maximum allowable tax levy to the greater of the percentage change in the County's January 1st equalized value as a result of net new construction or 3.86% in the 2008 budget and 2.0% in the 2009 budget. The actual limit for the County for the 2008 budget was 3.86%. The levy limit is applied to both operations and debt service. However, the Act allows the limit to be increased for debt service authorized prior to July 1, 2005 and in certain other situations.

As part of Wisconsin's State Budget Bill (1993 Act 16), legislation was passed that limits the County's future tax levy rates. Generally, the County is limited to its 1992 tax levy rate based upon current legislation. However, this limitation does not affect debt authorized prior to August 12, 1993 or refunding bonds. The County may exceed the limitation by holding a referendum (according to state statutes) authorizing the County Board to approve a higher rate. The County may also exceed the rate if it increases the services it provides due to a transfer of these services from another governmental unit.

State legislation also imposes restrictions on the County's ability to issue new debt. Generally, referendum approval is required to issue unlimited tax general obligation debt, with the following exceptions:

- -refunding debt issues
- -75% approval by the County Board
- -a reasonable expectation that the new debt can be accommodated within the existing tax rate
- -other exceptions as listed in State Statutes Section 67.045

Conduit Debt Obligations

From time to time, the County has issued Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, the ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the County, nor the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of December 31, 2007, there are two series of Revenue Bonds outstanding. The first, a \$1,000,000 Revenue Bond, Series 1998, was approved by the Fond du Lac County Housing Authority and the Fond du Lac County Board to finance the renovation and rehabilitation of existing facilities of the Fond du Lac Lutheran Home, Inc. The second, a reissuance of \$1,185,000 Health Care Facilities Revenue Bonds, Series 2000, closed in December, 2003, was approved by the Fond du Lac County Board to finance the acquisition and capital improvements of facilities of the ARC of Fond du Lac, a Wisconsin nonprofit corporation. These bonds are a limited obligation of the County payable solely from revenues received by the County pursuant to a note and sale agreement with ARC of Fond du Lac.

Subsequent Event

The County Board authorized the borrowing and sale of \$9,080,000 of General Obligation Promissory Notes in April, 2008, for the purpose of paying costs of refunding obligations of the County and of various projects included in the County's five-year capital improvement plan.

The County Board authorized the borrowing and sale of \$1,500,000 of Taxable General Obligation Promissory Notes in April, 2008, for the purpose of paying or reimbursing the cost of developing an aeronautic industrial park and expanding the corporate airport hangar area.
